".. At any rate, I do need to say, today makes one week since wearing the gloves. I use the rt hand all day long since that is the hand that I have a lot of arthritic pain and swelling. I use the left side a night. In just a few days, I found changes in my right hand, and now I dont have any pain, with only slight stiffness in my pinky finger, which was the worst. This gloves are amazing, and I'm sharing the information with my friends and family. In fact, I will be ordering another pair, this time the full finger for bedtime use. I love the softness of the glove and the warmth I feel. Finally, relief without having to take PILLS!!!!"
