Wearing Prolotex™ Full Finger Infrared Gloves on a regular basis will provide the best healing results.

Prolotex™ Infrared Therapy Gloves help to promote circulation and retard bacteria from growing on the flaky skin of your fingers.

Elegant darts on the back of the hand make this Ladies glove a narrower than the Regular Fit for Men. A nice smooth palm, a nicely positioned thumb, regular finger length and a tidy small elastic gathering on the inside of the wrist make this glove the best choice for most women

Designed for ladies with a normal hand and normal to short fingers.

“We are in winter here 'down-under'-nothing like your cold but bad enough if you have Raynaud's disease! I am writing to thank you for your prompt delivery of the full finger Prolotex gloves - a revelation! After a week or two of night - time use my fingers are much more flexible and are staying pink and healthy longer. When they do go dead, I put on the gloves & they are back in the pink very quickly. I have to admit I was a bit skeptical but the gloves are a wonderful thing and I carry them at all times. Thank you again - (I am spreading the word to other cold fingered persons).”

Regards from Meg J. W. Queensland, Australia.

PROLOTEx™ Far Infrared Gloves are a wise investment when it comes to the health and longevity of your fingers & hands.

“Gloves are soft and comfortable on your hands. Even if you just wear them during the night while you sleep - you will be helping your hands to heal.”

The threads in Prolotex™ Gloves are impregnated with a safe formula of bio-ceramics that emit beneficial far infrared rays (FIR). These waves of soothing FIR energy penetrate deep into the tissues of your body and basically increase the molecular activity of the cells.

Will give you an elegant look.
