Far Infrared Rays are very helpful in reducing inflammation and relieving your pain.

Less hand pain is always good!

I've been meaning to get back to you regarding Prolotex gloves. The gloves have been working very well for me. Within two weeks of wearing the Prolotex gloves, I have noticed significant changes in the blood circulation of my hands. My hands are much warmer on a consistent basis, and do not turn to "ice cold" when touching cold items. These gloves are truly amazing and I cannot believe how quick I have had positive results. I've been searching for a solution to my problem of cold hands, and I've finally found it. Ryan R. S.

We recommend Prolotex™ Far infrared Therapy Gloves help to promote circulation and rejuvenate dormant cells and tissues in your fingers and hands.

Prolotex™ Far Infrared REGULAR FIT - Men's Gloves are our new and improved pattern on our flagship standard glove design.

If you have swollen hands and need a looser fit, this Far Infrared Therapy glove is very suitable.

Use PROLOTEx™ Full Finger Far Infrared Therapy Gloves for healing: Arthritis, Raynaud's Syndrome, Cold Hands, Frostbite, Neuropathy, Sore achy hands, Tingly fingers, Numb fingers, White fingers, Puffy fingers, Strained tendons & ligaments, Burns & Scalds, Rashes, Broken bones and Bruises.
